

App. No. 10/031287
Office Action Dated December 29, 2004
Amd. Dated March 29, 2005

Amendments to the Claims:

This listing of claims will replace all prior versions and listing of claims in the application.

Claim 14 is canceled without prejudice or disclaimer.

Claims 3, 5-8 and 11 are amended.

Listing of Claims:

1. (Currently Amended) An openable screen element unit in a building structure for insertion in an opening of a wall in said building structure, said screen element unit comprising at least one screen element side-hinged to a frame structure, said screen element being pivotally mounted over a hinge axis in the frame structure for opening and closing in a direction away from the opening,

wherein the screen element comprises a first and second planar sectional element said elements being mutually angled and arranged in different planes with an intersection line essentially parallel with the hinge axis; and

wherein the two planar sectional elements are placed in two planes with a mutual angle of 10° to 20°.

2. (Previously Presented) An openable screen element unit according to claim 1, wherein the two planar sectional elements are placed in two planes with a mutual angle of approximately 15°.

3. (Currently Amended) An openable screen element unit according to claim 1, wherein the screen element is provided with a rebate along at least the a side end and a top end, said rebate having a complimentary cross section shape in relation to the cross section of the frame structure.

App. No. 10/031287
Office Action Dated December 29, 2004
Amd. Dated March 29, 2005

4. (Previously Presented) An openable screen element unit according to claim 1, wherein the two planar sectional elements have two planes that are both different from a plane of a wall opening.
5. (Currently Amended) An openable screen element unit according to claim 1, wherein the first planar sectional element have has a plane parallel with ~~the~~ a wall plane and the second planar sectional element differing therefrom.
6. (Currently Amended) An openable screen element unit according to claim 1, wherein the screen element unit comprises two screen elements side-hinged on either side of the a frame structure.
7. (Previously Presented) An openable screen element unit according to claim 6, wherein the two screen elements open toward a single direction.
8. (Previously Presented) An openable screen element unit according to claim 6, wherein the two screen elements have opposite opening directions.
9. (Previously Presented) An openable screen element unit according to claim 1, further comprising lighting means are arranged on one of the group consisting of the screen element unit and the frame structure.

App. No. 10/031287
Office Action Dated December 29, 2004
Amd. Dated March 29, 2005

10. (Previously Presented) An openable screen element unit according to claim 1, wherein the screen element is a fire door.

11. (Currently Amended) A screen element according to claim 10, wherein the screen element of the fire door has a space between two outer surfaces;
wherein automatic door closing means are arranged in connection with a side hinge means.

12. (Previously Presented) A screen element according to claim 1, wherein said first planar sectional element being wider than the second planer sectional element which is provided with locking means.

13. (Previously Presented) An openable screen element unit according to claim 1, wherein the screen element is a door.

14. (Canceled)

15. (Previously Presented) An openable screen element unit according to claim 1, wherein the screen element is rectangular in shape.

16. (Previously Presented) An openable screen element unit according to claim 9, further comprising:

sensor means for activating the lighting means.

App. No. 10/031287
Office Action Dated December 29, 2004
Amd. Dated March 29, 2005

17. (Previously Presented) An openable screen element unit according to claim 1, wherein the first planar sectional element has a plane coincident with a wall plane and the second planar sectional element differing therefrom.
